

International HLA
and Immunogenetics
Workshop

26th European Immunogenetics
and Histocompatibility
Conference

23rd British Society
of Histocompatibility and
Immunogenetics Conference

Liverpool

28 May – 3 June 2012

Workshop Projects - Anthropology

Anthropology

16th IHIW Project:

A H P D

Analysis of HLA population data

*to reconstruct the history of modern humans
and infer the role of natural selection*

Organisers:

Alicia Sanchez-Mazas and coll.,
AGP lab, University of Geneva

Anthropology

A H P D

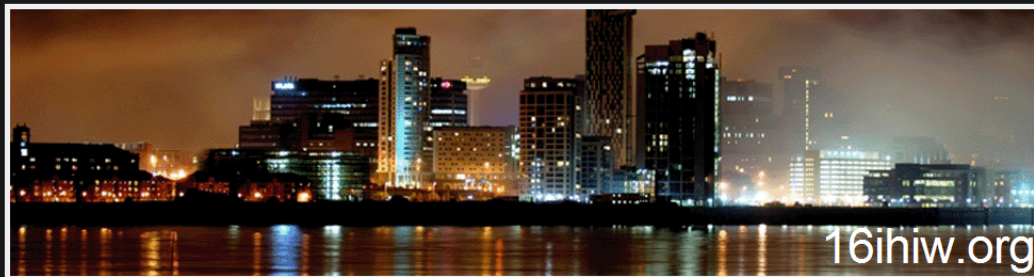

Goals:

To analyse the HLA molecular diversity within human populations
To investigate the genetic relationships between human populations

Collaborative work with the AGP team (Univ. of Geneva):

Data analyses using powerful statistical tests based on resampling methods and taking into account typing ambiguities

Interdisciplinary approach integrating specific information on human populations: linguistic, historical, environmental data, etc

Anthropology
